CAREER SUMMARY

Emerging software developer in Year Up United's Application Development pathway, building products through AI-assisted development workflows. Directed planning, design, iteration, testing, and safety/audit reviews with AI to ship a production booking/payments site (idahobackflow.com) and a daily-use inventory tracking app. Hands-on with Docker and Kubernetes plus warehouse/retail operations in process improvement and team leadership. Seeking an entry-level IT or software role to grow programming fundamentals through hands-on work.

AREAS OF EXPERTISE

AI-Assisted Product Development • Java • Agile/Scrum (GitHub Project Boards) • Technical Project Coordination • Docker • Kubernetes • Cursor • QuickBooks • AWS (introductory) • Process Improvement • Team Training & Leadership • Customer Service

PROFESSIONAL EXPERIENCE

SELF-EMPLOYED *Rockwall, TX*

AI Training Data Annotator / Delivery Driver *Aug 2026 - Present*

- Evaluate and annotate AI model responses for DataAnnotation.tech, rating accuracy and quality to help train AI systems
- Complete DoorDash deliveries on a flexible, self-managed schedule alongside Year Up United training

MOAB ENERGY *Longview, TX*

Warehouse Parts / Delivery Manager *Mar 2026 - Aug 2026*

- Processed up to 200 parts orders and deliveries per month, advancing order fulfillment throughput across oilfield warehouse operations
- Tracked inventory across 2,000+ SKUs and logged records in QuickBooks daily, maintaining accurate stock control and data integrity
- Completed up to 160 delivery stops per month on routes spanning 50–150 miles, expanding field coverage across oilfield customer sites

UPTOWN CHEAPSKATE *Longview, TX*

Sales Associate > Shift Lead *May 2025 - Mar 2026*

- Served up to 1,500 customers per month on the sales floor, driving order volume and service speed during peak shifts
- Processed 1,000+ transactions and returns per month, maintaining accurate register operations and checkout throughput
- Trained and supervised sales staff and coordinated floor operations, earning promotion from Sales Associate to Shift Lead

FAMILY-LED MENTORSHIP *Longview, TX*

IT Infrastructure Apprentice (Self-Directed) *Oct 2024 - Apr 2025*

- Completed an intensive six-month, hands-on mentorship focused on cloud infrastructure, containers, and automation concepts
- Collaborated on automation workflows to provision multi-node Kubernetes clusters, reducing deployment effort from weeks-long manual setup toward repeatable, minutes-scale runs
- Worked with Docker containers and Kubernetes cluster operations (including Rancher), with introductory exposure to AWS networking and compute

SNB WELDING *Boise, ID*

Commercial Door Installer / General Labor *May 2023 - Sep 2024*

- Installed commercial hollow metal doors, frames, and hardware as part of a small crew working under a lead installer
- Completed installs independently in separate areas of the same building, working without direct supervision
- Trained newer helpers on installation tasks and organized tools and the crew workspace daily

EDUCATION & TRAINING

YEAR UP UNITED *Dallas, TX*

Application Development Training *expected Jul 2027*

- Year Up United is an intensive career development program focused on professional skills, technical training, and corporate internship experience. Coursework: Workplace Communication, Application Development, Computer Architecture, Programming, Database Fundamentals, Software Testing, and Software Development
